

BIG SANDY NEWS.

LOUISA, KY.

Big circus next Wednesday.

John Rice, Jr., has entered upon his duties as Gauger.

Are you coming to the show? Yes, we are coming to the show at Louisa, September 8th, 1888.

Read carefully the advertisement of the Creston circuit, which will exhibit here next Wednesday.

Milt Burns failed to spell the word "Wain" and says if he finds it is obsolete he will contest the election.

The town trustees have let contracts for cleaning the ditches, and the work is now in progress.

The Baptists gave a lawn fete at Dr. Yates' Friday evening. The attendance was small and the proceeds were not large.

Dr. Weis has moved his office from the corner, and can now be found in the same building four doors above his old stand.

The members of the Louisa Library are requested to meet at Prof. Lytle's on Friday evening, Sept. 10th., at 7:50 o'clock.

Miss Stella Gilligan has returned to her home in Baltimore, after a few weeks visit here. Mrs. Norris accompanied her as far as Catlettsburg.

The call for a meeting of the members of the Louisa Library last Monday evening failed to accomplish its object. But we trust the members will redeem themselves by putting forth a more than ordinary effort to have a successful meeting on Friday, Sept. 10th.

Ayer's Ague Cure, when used according to directions, is warranted to eradicate from the system all forms of malarial diseases, such as Fever and Ague, Chills, Intermittent, Remittent and Bilious Fevers, and disorders of the liver. Try it. The experimenter is a safe one, and will cost you nothing if a cure is not effected.

A misanthropical kind of a fellow was the who sat in the chimney-corner hugging to his bosom a starless kind of disbelief in all things good until a friend brought him a bottle of Tabler's Buckeye Pile Ointment which curing him of Piles transformed him into a happy mortal. Tabler's Buckeye Pile Ointment is the best remedy ever prepared for Piles.

An earthquake, which was forcibly felt here Tuesday night, is the latest excitement. Reports from Warfield state that the people of that community were so badly frightened that they left their dwellings. And it is said that several houses were destroyed at Maysville, Ky.

Rev. L. H. Suddith has begun the publication of a religious monthly paper at this place, called the "Mountain Missionary." This paper deserves the hearty support of the good people of this portion of country from the one fact, if no other, that the editor is a zealous Christian worker.

According to Mother Goose, when a man marries his trouble begins, but experience teaches him that some evils can be remedied. Hence when it is needed he procures a bottle of White's Cream Vermifuge, a preparation that will cure all the children on the globe if they are troubled with worms. White's Cream Vermifuge means Death to Worms.

Josh Billings says: Brevity and silence are the two great cards, and next to saying nothing, saying a little is the strength of the game." Therefore we say briefly that White's Cream Vermifuge is preferred by all as a remedy for worms, for the simple reason that it is only the pure preparation that brings the worms surely and speedily.

Soda or Saleratus, like port wine, can be made for almost any price, which is done by using cheap and deleterious substances. J. Monroe Taylor's Gold Medal Soda or Saleratus, is perfectly pure and unadulterated, and one paper will convince any intelligent lady that there is nothing equal to it. It will produce one-eighth more bread than any other; and much better to use with cream tartar. Grocers and Druggists sell it.

The Creston New R. R. Show is coming on its own railroad train. He in town early and don't miss the grand street parade at 10:30 a. m. Two shows daily. Grand free show before each performance, by Mons. Charest, who rides a bicycle up a wire stretched from the ground to the top of the center pole of the canvas, and take his wife with him,

and shooting glass balls thrown in the air by his wife while descending. This will be seen at show ground after street parade. One ticket admits to all advertised shows.

The spelling match at the Mite Tuesday evening afforded considerable amusement. Some of the mistakes were laughable. A certain druggist's orthographical abilities are decidedly on the "wain". A main street lady would have won the prize, but the noise was "plugging". Another lady was the "architect" of her own misfortune. A madison street young lady made an attempt to embrace "Mohammedanism" but went down in the effort. Another young lady kept her opponents busy a while, but when she could keep them at "Bey" no longer she gracefully retired.

This is the day of inventions. We try to make new things or improve on the old, and Louisa is not behind in the march of improvement. As a proof of this see the wonderful chair in front of the Chittaroi Hotel. It is the invention of Mr. D. D. Garred, and the novelty of the design is only surpassed by the beauty of the workmanship. A few minutes after it was finished he was offered 25 cents for the right to sell it in this and adjoining States, but as the inventor is going to attach a contrivance for telling the price of milk when turnips are a cent a bushel, he declined to sell.

"The Earthquake."

Slowly but surely is Louisa marching to the van in the race of great cities. Still, there is such a thing as over-doing a matter. Louisa is not quite metropolitan enough to sufficiently support an earthquake, dance, and methodist mite all one night. We must extend the limits of our corporation and take in Wellman's branch on the North and Lick creek on the South. We must not be "a pent up Utica."

Various reasons have been assigned for the earthquake. The most plausible of any, perhaps, is that Webster, (the great speller), was disturbed in his grave because of the bad spelling at the mite; and when some one spelled Fruit, "f-r-o-o-t," he flopped over in his coffin and said: "Can such 'spelling bee' the fruit of ignorance, or is the weight of this cake the insidious spell that holds them in its iron grasp."

Ha! red fire and slow music!!!

Harry Ward said, "go way from dat winder dis instap, or I'll shoot." Dick Prichard said, "it's Jim Lackey making a speech at Bear creek."

Henry Sullivan said, "There goes my sign-board."

Bill Rice said it shook his false teeth out. See 'em.

Joe Botts said, "Now go way Tom Cregor, I didn't botherin' you."

Josh Diamond went home and got his pistol.

Claude Norris says the hair was right on top of his head.

Henry Ferguson thought it was in honor of his donning the judicial robe.

Doc Wise said it was the only time in his life he ever needed a balloon.

Owen Garred said, "it's the Board of Health in my hog-pen fighting."

Milt Burns said, "The Lord is giving Louisa the shake for allowing hogs to run at large. Where's my rabbit's foot?"

Doc Swetnam said, "A pernicious chill in the most malignant form."

A conversation that floated out of a bed-room window night before last:

"John! are you cold?"

"No."

"What are you shaking the bed for? Keep still, you fool, and let me go to sleep."

"Hush up; some one will think a mad dog has bitten you, and I'll have to buy a muzzle to-morrow, and they cost 40 cents."

Red fire—slow music—the curtain drops.

One of the most interesting and important questions now agitating the public is how to procure a fuel which will be both economical and practically inexhaustible. The rapid growth of our population, and the wonderful increase of our manufacturing industries, both in number and extent, combine to render the fuel problem one of vital moment. With the spread of settlements the timber has disappeared to such an extent that wood as a fuel, except in certain narrow districts, has long since ceased to be used as such. It would at first appear that there is no end to the supply of coal, but the exhibition of a few facts and figures—not necessary to be mentioned here—would clearly show that such is not the fact. The supply of coal will in time be exhausted; wood has already gone—what next? We must be kept warm, and the wheels of manufacture must not be stopped for want of fuel. The outlook for the future would be indeed gloomy were it not for the fact that a supply cheap, safe, easy to handle and boundless as to quantity is almost beneath our feet.

Natural gas, a fuel which only waits the tapping of Mother Nature's vast gasometer to come to the surface, is, to a large extent, the fuel of today, and will in the future take the place of wood and coal.

The gas-fund at Warfield is sufficient proof of the existence of the article in the wells which have been bored near Louisa shows that it can be brought to this place. As a light and as a fuel it can be used much cheaper than any other illuminant or heater, and there is no reason why we should not encourage any enterprise which has for its object the introduction of gas into our town. Mr. Isaac Rigdon, well and favorably known to our citizens, a gentleman thoroughly posted on all matters pertaining to gas and oil, is asking our business men and citizens generally to say they will give the new fuel a test. We are glad to know that he is meeting with flattering success. Mr. Rigdon represents a company of Kentucky and Ohio capitalists, formed under the laws of this State, and this company will, if properly encouraged, introduce gas into Louisa. To this end we ask our citizens to take hold of the matter as sensible men and unanimously say they want gas. Nobody is asked to subscribe a cent, but only to pay for what they get when they get it. Mr. Rigdon will be in town a few days, and will be happy to see all who are interested on the subject.

\$25.00 Reward

For the arrest and conviction of the person or persons who cut my buggy on the night of August 23rd, 1888.

J. A. HUGHES.

An old gentleman in Maryland said he had raised his family on "Dr. Sellers' Liver Pills," and considered them almost as essential to a family as bread. That's true.

We had a call a few days since from Mr. S. R. Adams through whom we ordered several fruit trees of Messrs. Franklin, Davis & Co., whose nurseries are located at Richmond, Va., and Baltimore, Md. They are the largest in the South. This stock is of the very best grade and they guarantee every tree true to name. We can recommend this old firm, which has been in the business over 35 years, to any of our friends who may need nursery stock and give their order to Mr. Adams. Mr. Adams offers the best reference as to the responsibility of said nursery.

One vial of "Dr. Sellers' Vermifuge" is worth a dozen of any other. If your children have worms, and no doubt they have, give them a dose.

AN ENTERPRISING, RELIABLE HOUSE.

R. F. Vinson's Drug Store can always be relied on, not only to carry in stock the best of everything, but to secure the Agency for such articles as have well known merit, and are popular with the people, thereby insuring the reputation of being always enterprising, and ever reliable. Having secured the Agency for the celebrated Dr. King's New Discovery for Consumption, will sell it on a positive guarantee. It will surely cure any and every affection of Throat, Lungs, and Chest, and to show our confidence, we invite you to call and get a Trial Bottle Free.

BUCKLE'S ARNICA SALVE.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns, and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale at R. F. Vinson's Drug Store.

The sole aim of the Creston New R. R. Show has been to gather around them a company of arctic celebrities, that would permit them to present to the public the best circus performance that has ever been given. The menagerie was added because no circus is complete without one.

Did you ever see a horse with eight perfect feet? Shod with eight iron shoes? The Creston New R. R. Show has the only one born.

ROYAL BAKING POWDER
Absolutely Pure.

This powder never varies. A marvel of purity, strength and wholesomeness. More economical than the ordinary kinds, and cannot be sold in competition with the multitude of low cost, short weight alums or phosphate powders. Sold only in cans. ROYAL BAKING POWDER CO., 106 Wall St., N. Y.

WAIT FOR THE KING OF ALL SHOWS

Enormously Enlarged for this Tour.
